

- **We are excited to share the latest updates from our new factory facilities.**
Here are some key points:

- > Our new facilities cover an area of **21,500** square feet.
- > We currently have **10 part numbers available** with monthly production capacity of **20,000 sets**.
- > By the end of February 2024 we will launch **18 new part numbers**.
- > By the end of first trimester of the year we will launch **25 TOP NEW numbers** for **2023-24 models**.
- > By the end of Q1, our production capacity will be around **50,000 sets per month**.

- **Our additional services:**

- > Friction materials design
- > Braking track and road test
- > Market intelligence
- > Box and packaging design

We look forward to scheduling a zoom meeting or a visit to our new facilities to discuss how we can collaborate!
